

# AP United States History

---

## Overview

This course provides students with an understanding of major themes in U.S. history, including American identity, economic and social life, political change and continuity, and the U.S. role in the world. The course is ideal for the student who has a real interest in history and who is prepared to work consistently and to go well beyond. Students will work collaboratively with a mentor to build upon their intrinsic motivation to have good reading and comprehension skills, to be well organized, and to be prepared to examine and think about different, often conflicting, interpretations of history. The program moves briskly, so students must be prepared to devote time daily to reading and note taking. There will be considerable in class discussions based on assigned readings, as well as numerous interpretive essays.

## Objectives

- Comprehend and retain information regarding the major themes of U.S. History
