

HAND-PAINTED MASKS FOR HOPE

Dear Ascend Now Families, hi!

My name is Rayden, and I'm part of Filtro - a company that was created to ease the tension within our community caused by COVID-19. We're a team of four 13-year olds from Jakarta, Indonesia, and we view the hope we spread as an opportunity to present a better, healthier, wiser future for all Indonesians.

Being brought up in Indonesia taught us the importance of giving back. The country has always been good to us and because of the effects of COVID-19, this company was started to help empower our community, one mask at a time.

HAND-PAINTED MASKS FOR HOPE

HOW CAN YOU SUPPORT US?

When you purchase our masks, this allows us to provide sanitary kits for those affected by the pandemic.

If you're outside Indonesia and would like to support our cause as well, feel free to check out our [Linktree](#) and donate to us [here!](#)

The overarching theme of Filtro's masks is hope. Designs featuring characters such as Donald Duck, My Neighbour Totoro and Kobe Bryant act as symbols of motivation that must be present while Indonesia handles the pandemic.

WHAT HAVE WE DONE TO HELP?

Throughout our journey of giving back, Filtro has donated sanitary kits and masks to multiple communities not limited to Go-Jek drivers, homeless shelters, and orphanages.
